

Dear Mr. Rausch:

April 24, 2012

We were not at home when you arrived to handle the bees that gathered in our neighborhood. Our daughter, who watched you graciously lowering rescue, mentioned that you spent some time making sure that the bees were safely captured & that you even came back from some distance to pick up the

"Bee House"

late at night.

All other daughter is highly allergic to bee stings so we owe you a special thanks - for your efforts.

April was so entranced with the bees & learns that you taught your children.

We appreciate your being so responsive & thank to your children for giving us their afternoon.  
Sincerely,  
Ruthie & Renato
